

Introducing Iqra Consulting

Changing the way you do business – for good

Iqra Consulting Ltd. helps small and medium-sized companies change the way they do business with their customers and with their suppliers. Using the Dynamics NAV suite of ERP from Microsoft, together with our high quality professional services, we evolve your business processes to deliver a faster, more accurate, more productive and more efficient business model to the benefit of everyone that interacts with it.

About Us

Since its inception, Iqra Consulting Ltd. has been leading the way in implementing Information Technology (IT) projects.

Our role-tailored software enables clients to quickly access everything they need to carry out their tasks whilst our unique approach to delivering projects, offering fixed price contracts, means that our customers know exactly what they are getting for their money.

Services

At Iqra Consulting we pride ourselves on being a 'One Stop Shop' solution provider, offering every service required to deliver our solution.

We provide a range of products and services to assist with the smooth implementation of any project. These services incorporate hardware provision, product design and development, business analysis, consultancy, training, support and IT outsourcing.

IT Outsourcing

Iqra Consulting takes all your IT hassles while you focus on your main business aspect. We have a team of IT specialists who can intervene anytime

A: to troubleshoot IT related problems (server crash, pc crash, printer not printing, etc.)

B: to setup your server (AD, firewall, antivirus, etc.)

C: to setup PABX, cabling, etc.

ERP - Microsoft Dynamics

Microsoft Dynamics is an integrated, adaptable business management solution that enables people to make important business decisions with greater confidence.

Microsoft Dynamics has the look and feel of familiar Microsoft applications – making adoption by users easy and reducing the risks inherent in implementing a new solution.

Microsoft Dynamics NAV

Microsoft Dynamics NAV is a business management solution for small and mid-sized organisations that helps you simplify and streamline your highly specialised business processes, rapidly adapting to the unique way you do business.

Microsoft Dynamics NAV addresses the following business areas.

- Financial Management
- Distribution Purchase and Payables
- Sales and Marketing
- Project Accounting & Control
- Business Intelligence

Our Standards

Our transparent standard gives you and all our customers' total assurance that we have undertaken the necessary training and accreditation to implement your chosen business solution to the highest standard.

Our Approach

Whatever business you are in, the pressure for change is significant. Changes to processes, routes to market, the deployment of technology, the increasing demands of customers and suppliers, the use of the internet, personnel skills, outsourcing, and better access to management information – the list goes on and on.

That's why for us the heart of the process is helping our clients change the way they

Microsoft Dynamics

do business through changing the business system they employ.

Changing the Way You Do Business

How you define success will often determine the scope of a potential project – cost reductions, business streamlining, increased automation, improved management reporting, and better business communication.

The supplier you need is Iqra Consulting.

Six Steps to Success

We make sure our clients get true business benefit, a rapid return on their investment and a helping hand maintaining their competitive edge, using our six-step approach.

Step 1: Understanding your current frustrations and pains

Step 2: Improving existing processes and operations

Step 3: Reducing costs and overheads through the automation of processes

Step 4: Providing the business with quicker decision-making tools

Step 5: Increasing visibility of business data

Step 6: Providing better quality management information
